DECISION TITLE: Fire Appliance Disposal Pathway

Executive Summary: (no more than 100 words)

A programme of work to introduce six new Scania Fire Appliances into CFRS fleet has led to the need to dispose of two end of life Fire Appliances that are no longer safe and legal to be used by the authority. These appliances have a small resale value and therefore need to be disposed of in line with CFRS Asset Disposal Strategy, with any disposal of a vehicle valued at over £10,000 being a decision of the PFCC. Two of these vehicles are being disposed of at auction, actual resale value will be determined by the success of the auction.

In addition to the above is the requirement to dispose of, via auction, of two trailers. Again, these have a small resale value which will be realised at auction. Two industrial flail type mowers, that were purchased as part of the wildfire response, have also been identified for disposal.

Recommendation:

The Commissioner is asked to:

- Support the disposal pathway of two appliances being sold at a public auction house.
