

The Chief Constable for Cumbria Constabulary

Code of Corporate Governance 2025/26

Introduction

The statutory responsibilities of the Chief Constable 'to maintain the King's Peace' are outlined in various Police Acts. The Police Reform and Social Responsibility Act 2011 (PR&SRA), which introduced Police and Crime Commissioners, re-enforced the operational independence of the Chief Constable and clarified their role in supporting the delivery of the Commissioner's Police, Fire and Crime Plan.

The PR&SRA also established the Chief Constable of Cumbria Constabulary (the Constabulary) as a separate corporate sole. Accordingly, the Chief Constable is responsible for ensuring that business of the Constabulary is conducted in accordance with this statutory and regulatory framework and in accordance with proper standards. This includes ensuring that public money is safeguarded, properly accounted for and used economically, efficiently and effectively. In fulfilling this overall responsibility, the Chief Constable is responsible for putting in place proper arrangements for governance, including risk management and the arrangements for ensuring the delivery of the functions and duties of their office.

In doing this, the Chief Constable approves and adopts annually this Code of Corporate Governance, 'The Code'. The Code gives clarity to the way the Chief Constable governs and sets out the frameworks that are in place to support the overall arrangements for Cumbria Constabulary. The Code is based on the core principles of governance set out within the publication '**Delivering Good Governance in Local Government Framework (Governance Framework)**' by CIPFA/SOLACE 2016 which has 'proper practices' status and has been updated following the addendum guidance issued in May 2025.

On an annual basis the Chief Constable will produce an Annual Governance Statement (AGS). The AGS reviews the effectiveness of the arrangements for governance and sets out how this Code of Corporate Governance has been complied with.

The Code of Corporate Governance

This code of corporate governance sets out how the Chief Constable will govern. It is based on the seven good governance principles highlighted by the good governance standards for public service. This code uses those principles as the structure for setting out the statutory framework and local arrangements that are in place to achieve them.

Seven Good Governance Principles		Pages
A	Behaving with integrity, demonstrating strong commitment to ethical values and respecting the rule of law.	5-8
B	Ensuring openness and comprehensive stakeholder engagement.	9-12
C	Defining outcomes in terms of sustainable, economic, social and environmental benefits.	13-15
D	Determining the interventions necessary to optimise the achievement of intended outcomes.	16-19
E	Developing the entity's capacity, including the capability of its leadership and the individuals within it.	20-24
F	Managing risks and performance through robust internal control and strong public financial management.	25-30
G	Implementing good practices in transparency, reporting and audit to deliver effective accountability.	31-33

Corporate Governance Arrangements

The following diagrams depict the Constabulary's Governance Structure through which the Chief Constable discharges their duties and ensures delivery against the seven principles above.

The Chief Constable drives the strategy of the Force through effective governance arrangements for both operational and organisational priorities. All meetings are clearly defined within a terms of reference and exceptions and final decisions are highlighted to the Chief Constable directly through the Strategic Management Board.

Principle A: Behaving with integrity, demonstrating strong commitment to ethical values and respecting the rule of law.

Chief Constables are accountable not only for how much they spend, but also for how they use the resources under their stewardship. This includes accountability for outputs, both positive and negative, and for the outcomes they have achieved. In addition, they have an overarching responsibility to serve the public interest in adhering to the requirements of legislation and government policies. It is essential that, as a whole, they can demonstrate the appropriateness of all their actions and have mechanisms in place to encourage and enforce adherence to ethical values and to respect the rule of law.

Ethics and Integrity

The Chief Constable and Chief Officer Group recognise that to operate legitimately it is essential that the Constabulary is able to demonstrate the highest standards of integrity in all its activities.

Officers and staff employed by the Constabulary are expected to adhere to the highest standards of conduct and personal behaviour. The requirements of officers are set out in the Police (Conduct) Regulations. The requirements of Police staff are set out in the Police Staff Council Standards of Professional Behaviour document.

The Constabulary has adopted and provided training on the Code of Ethics produced by the College of Policing and all officers and staff are required to abide by its provisions.

The Constabulary has an Anti-fraud and Corruption Policy and Procedures, which set out clear definitions of fraud and corruption. The policy embodies the values of the Code of Ethics based on the 7 Nolan Principles for Public Life and makes clear the duty of everyone with regard to their own actions and conduct and those of others to protect the organisation against fraudulent and corrupt acts. The procedure includes guidance for integrity in respect of gifts and hospitality, completion of a register of interests and declarations of related party transactions. These ensure that staff avoid being engaged in any activity where an actual or perceived conflict may exist and that there is transparency in respect of any personal or business relationships.

Ethics and integrity issues are specifically covered in the Constabulary's Performance Development Review process (PDR), in which all officers and staff are required to participate.

The Home Office Financial Management Code of Practice requires the Chief Constable to ensure that governance principles are embedded within the way the organisation operates. This is achieved through the

Chief Constable's arrangements for corporate governance, which embody the principles of openness, accountability and integrity in the conduct of the Constabulary's business

The Joint Financial Regulations set out the internal framework and procedures for financial regulation and administration. They set out the arrangements for the proper administration of financial affairs ensuring these are conducted properly and in compliance with all necessary requirements. They also seek to re-enforce the standards of conduct in public life, particularly the need for openness, accountability and integrity. The Financial Regulations also re-enforce the anti-fraud and corruption policy, covering the culture expected within the organisation, responsibilities and measures in place to prevent fraud and corruption and how it will be detected and investigated.

The Joint Procurement Regulations, re-enforce the integrity requirements within the anti-fraud and corruption policy in the context of procurement activity and interactions with commercial suppliers. They provide a guide to staff and suppliers in respect of the principles that will be followed in the conduct of business and the processes we expect staff to comply with when buying goods and services. Provisions within the tendering process re-enforce the requirement for suppliers to act in an ethical manner.

The Constabulary maintains arrangements for confidential reporting (whistleblowing) and guidance for managers with regard to how any reporting will be responded to. These are contained in the Anti-Fraud and Corruption Policy, which is supported by a regularly publicised internal and external confidential phone line and e-mail reporting system on which individuals can leave anonymous information. The Constabulary also subscribes to and publicises 'Public Concern at Work' (PCaW), an independent authority on public interest whistleblowing to allow employees the facility to report externally to the Constabulary if required.

The Police, Fire and Crime Commissioner and Chief Constable have established a Community Scrutiny Panel (previously known as the Ethics and Integrity Panel) to ensure that arrangements for integrity, standards, conduct and behaviour are subject to independent external scrutiny. As part of its role the Panel reviews performance across agreed indicators of integrity, including public complaints. The Panel's findings are reported annually to the Commissioner's Public Accountability Conference to ensure good practice is recognised and encouraged, while any potential areas requiring improvement can be identified and dealt with accordingly to enhance performance.

The Joint Audit Committee operates within Standing Orders for the regulation of its business. The orders include expectations in respect of the conduct of members and how any conflicts of interest should be

managed. Members of the Committee are independent and will scrutinise and monitor the operation and effectiveness of the arrangements for governance, including arrangements for anti-fraud and corruption.

Respecting the Rule of Law

The Chief Constable recognises that in fulfilling their duty to 'Maintain the King's Peace' it is essential that the Constabulary as an organisation is able to demonstrate respect for the law.

The Chief Constable is committed to operating an environment where open debate and transparent governance is the norm, allowing senior officers to carry out their responsibilities in delivering the Constabulary's objectives.

The Director of Legal Services, who is a qualified solicitor, provides advice to the Constabulary on all legal matters and is consulted on all strategic decisions to ensure that laws are not contravened.

As part of their training police officers receive specific training on the law and its applicability to policing services.

The Constabulary has a Standards, Insight and Performance Command, which includes a Professional Standards function (PSD), whose role is to promote proper standards of conduct and monitor compliance with codes. The function actively liaises with management teams and other groups with the aim of maintaining high standards of conduct and produces regular reports, which set out details of non-compliance with standards and codes.

The Professional Standards function has its own intranet site to facilitate demonstration of best practice and produces a quarterly newsletter (The Standard) highlighting areas of concern, guidance, learning and signposts officers and staff to those that can provide welfare / support. The Professional Standards function has an anti-corruption unit whose role is to investigate information and intelligence received concerning the conduct of officers and members of police staff.

The vetting unit within PSD is also responsible for the initial and continued monitoring of Officer's and Staff's suitability to perform their duties. This includes a variety of financial and intelligence checks as per the requirements of the national vetting approved professional practice (APP) as set by the College of Policing.

The Professional Standards function also oversees all complaints, ensuring compliance with Police Reform Act 2002 and the Police (Complaints and Misconduct) Regulations 2020. These complaints are reported to and audited periodically by the Office of the Police, Fire and Crime Commissioner. The Chief Constable also has a procedure in place to receive and investigate complaints made to it about the conduct of National Police Chiefs Council (NPCC) Officers (with the exception of the Chief Constable who is accountable to the Commissioner) under the relevant conduct regulations.

Whilst the day-to-day monitoring of public complaints and employee's adherence to the regulations and standards are monitored within PSD, the Deputy Chief Constable also holds a bi-monthly Professional Standards Governance Board meeting for regular Executive oversight.

Principle B: Ensuring openness and comprehensive stakeholder engagement.

Constabularies are run for the public good, they therefore should ensure openness in their activities. Clear, trusted channels of communication and consultation should be used to engage effectively with all groups of stakeholders, such as individual citizens and service users, as well as institutional stakeholders.

Openness

All decision making operates within the specific legislative and regulatory frameworks that confer on the Chief Constable duties, powers and responsibility. The significant elements of the statutory framework for decision making comprise:

- Various Police Acts, which outline the responsibilities of the Chief Constable and provide clarity on their operational independence.
- The Police Reform and Social Responsibility Act 2011 (PR&SRA) providing the legal framework for decision-making.
- The Policing Protocol Order 2011 setting out the framework within which the PFCC & Chief Constable should work and requiring all parties to abide by the Nolan Principles.
- The Home Office Financial Management Code of Practice for the Police Service embedding the principles of good governance into the way the Chief Constable operates.

Challenge and scrutiny contribute to good governance by being part of accountable decision making, policy making and review. The implementation of a robust decision making process ensures that the right decisions are taken for the right reason at the right time. The Chief Constable adopts rigorous standards of probity, regularity and transparency in decision making and all decisions are taken solely in the public interest and to maintain the King's peace.

The Constabulary has a Chief Officer Group, which has responsibility for strategic decision making and is supported by subsidiary boards as outlined above on page 3. Decisions of the Chief Officer Group and strategic boards are recorded and made available to key internal stakeholders. All significant strategic decisions are referred to the Chief Officer Group. A forward plan and standing items ensure that all significant areas of Constabulary business are considered on a regular and planned basis. Reports for decisions are prepared on a standard template, which ensures that the implications of all decisions are clearly understood. This includes a requirement to acquire relevant financial, legal, human resources, equality, procurement, ICT

and risk management advice. The Director of Legal Services, in conjunction with the Constabulary Chief Finance Officer has responsibility for the lawfulness of Chief Officer Group decisions.

Items of Constabulary business falling under the remit of the Police, Fire and Crime Commissioner or of a strategic nature are referred to the Commissioner from the Chief Officer Group. Decisions for financial investment are subject to a fully developed business case that provides a clear justification for the expenditure. The Commissioner's decision making policy sets out the decision making process and how decisions will be recorded and published to ensure transparency of all decisions taken. A Code of Conduct provides advice with regard to potential conflict and declarations of interest.

The Constabulary's wider governance framework details specific responsibilities of key officers in relation to areas of governance. The framework includes financial regulations, procurement regulations, anti-fraud and corruption policies, a scheme of delegation and codes of conduct. These documents ensure all officers and staff have a shared understanding of their roles, responsibilities and decision making authority within the organisation.

The Constabulary has also agreed a communications protocol with the Commissioner, setting out who is responsible for communicating information and clearly identifying whether there is a single lead organisation, a joint responsibility or a supporting responsibility.

The Chief Constable complies with guidance provided by the Information Commissioner in respect of an information publication scheme. This ensures key information to ensure public accountability is available through the Constabulary's website.

[Engaging Effectively with Institutional Stakeholders](#)

The Police, Fire and Crime Plan sets out a Pan-Cumbrian vision. The vision recognises that, in preventing crime, commitment is needed from a range of organisations involved in policing, community safety and criminal justice. The Constabulary works in partnership with a number of public, private and third sector partners to do this. The Chief Constable reports details of actual and planned collaborative ventures to the Commissioner on a regular basis.

The financial and procurement regulations provide for the regulation of partnership arrangements and to ensure that the purpose of such partnerships is evaluated and risks assessed before the Constabulary agrees to participate.

Significant partnership working arrangements are supported by memorandums of understanding, strategic plans and operating protocols which clearly state the respective responsibilities expectations of each partner.

Engaging stakeholders effectively, including citizens and service users

The Constabulary has a Community Engagement and Consultation Strategy, which is reported through the Operations Board. This includes a consultation action plan, which co-ordinates all on-going consultation activities and is reviewed and refreshed on an annual basis to continually improve consultation arrangements.

The Constabulary engages with local communities through the work of its Neighbourhood Policing Teams through the Local Focus Hubs and operating engagement plans, which use a range of methods that are specific to urban and rural community needs. The plans ensure that community priorities, concerns and areas for improvement are identified and dealt with.

The Constabulary has a media and communications strategy aimed at establishing clear channels of communication and engagement with all sections of the community. This includes alternatives to traditional communication methods including the force website (via the national single on-line home platform) to provide key information and online services to the public. Social media and pro-active media coverage of events are used to provide accurate messages, advice, appeals and re-assurance and engage with the local communities, as well another channel to report incidents and, to receive direct community feedback to the force and Neighbourhood Policing Teams.

The Strategic Independent Advisory Group (IAG) meets regularly to discuss emerging issues of strategy and policy both nationally and locally and to support, scrutinise and challenge the Constabulary on how it conducts its policing activity.

The Constabulary meets its requirements under the Equality Act 2010 by setting equality objectives every four years and publishing equality information via its website every three months.

The Constabulary surveys victims of crime and anti-social behaviour which contribute to ensuring that the Victims' Code of Practice is complied with and to use the feedback to improve the experience of victims and the services provided. Service recovery is part of this process.

Local crime data is published at a community level via the Constabulary's website and nationally via [police.uk](https://www.police.uk) to increase the transparency of crime and performance data.

Principle C: Defining outcomes in terms of sustainable economic, social and environmental benefits.

The long-term nature and impact of many of Chief Constables' responsibilities mean that they should define and plan outcomes and that these should be sustainable. Decisions should further the purpose of Police and Crime Commissioners, contribute to intended benefits and outcomes, and remain within the limits of authority and resources. Input from all groups of stakeholders, including citizens, service users, and institutional stakeholders, is vital to the success of this process and in balancing competing demands when determining priorities for the finite resources available.

Defining Outcomes

The Chief Constable determines the strategic direction and objectives for the Constabulary. This supports the Police, Fire and Crime Commissioner in developing the Police, Fire and Crime Plan. The Commissioner approves policing objectives, which are incorporated into the plan, which is available on the Commissioners website at www.cumbria-pfcc.gov.uk

In developing the Constabulary's vision and strategic priorities the Chief Constable takes into consideration their statutory responsibilities for maintaining the King's Peace, the Home Secretary's Strategic Policing Requirement, the Constabulary's Strategic Assessment, based on operational intelligence, and the views of a range of stakeholders including the community, staff and partners. Performance outcomes, operational intelligence, strategic risks, the Force Management Statement and the results of audits and inspections are also taken into consideration when setting strategic priorities.

The Constabulary has developed a Plan on a Page, which highlights its operational priorities for the forthcoming year in delivering the mission to of 'Keeping Cumbria Safe'. This mission consists of four pillars known as the '4Cs'. They are:

- Contempt for criminality
- Compassion for victims
- Communities focus
- Care for colleagues

The 4Cs plan on a page outlines how the 4Cs will be delivered, it also outlines key support activities, its policing style and leadership standards. The presentation of the Plan on a Page provides a concise and easily understood overview designed to focus officers and staff on the Chief Constable's mission.

The Constabulary's medium term financial forecasts supports both the Commissioner's medium term financial strategy and the Chief Constable's policing vision by aligning resources with policing priorities over a five year time period, which ensures that a sustainable approach to service delivery is adopted.

Sustainable economic, social and environmental benefits

A wide range of information and stakeholder opinions taken into consideration in developing the Chief Constable's policing vision. This ensures that balanced and comprehensive consideration is given to all aspects of the potential impact of policing policy decisions on the local community.

All decisions by the Chief Constable are taken in the public interest. To manage risk and ensure transparency employees are required to make declarations where there are, or may be perceived to be, a conflict of interest.

The Constabulary adopts a medium term outlook aligned to the medium term financial planning period when developing business plans, ensuring that the sustainability of service provision is considered as a key element of the business planning process. Due to their long term impact capital expenditure plans are developed over a ten year forecast period.

It is recognised that the Constabulary's officers and staff are its greatest asset, and that effective human resource planning is the most significant factor influencing the delivery of sustainable economic, social, and environmental benefits. The Constabulary's People Strategy encompasses a range of strategic themes to ensure that the Constabulary nurtures, cares for and gets the best from its workforce. In addition, the People Strategy supports the effective planning, deployment, and training of staffing resources.

Themes include:

- Well-being
- Workforce Planning
- Learning & Development
- Resourcing, succession and talent management
- Reward & recognition
- Performance management

- Supporting change & engagement
- Equality & diversity
- Health & Safety.

The Constabulary complies with the Equalities Act 2010. In doing so all policies, strategic decisions, functions and practices are assessed against the general and specific duties of the Act with the aim of ensuring that we evaluate, document and foster good relations and advance equality of opportunity.

Principle D: Determining the interventions necessary to optimise the achievement of the intended outcomes.

Chief Constables achieve their intended outcomes by providing a mixture of legal, regulatory, and practical interventions. Determining the right mix of interventions is a critically important strategic choice and Chief Constables have to make to ensure they achieve their intended outcomes. They need robust decision-making mechanisms to ensure that their defined outcomes can be achieved in a way that provides the best trade-off between the various types of resource inputs while still enabling effective and efficient operations. Decisions made need to be reviewed continually to ensure that achievement of outcomes is optimised.

Planning Interventions

The Constabulary develops a work programme to deliver its priorities. The work programme is based on:

- The Strategic Assessment (a document which sets out the Chief Constable's operational priorities based upon performance and intelligence)
- The regional strategic threat and risk assessment
- The results of PEEL & Thematic Inspections by His Majesty's Inspectorate of Constabulary and Fire & Rescue Services (HMICFRS).
- The Futures programme, which sets out how the Constabulary plans to deliver savings to balance its budget through effective understanding of demand, efficiencies, income generation and investment.
- Business Strategies, which describe what and how the Constabulary will deliver essential support functions including Digital, Data & Technology, HR, training, fleet, estates and commercial.
- The Workforce Plan, which describes how the Constabulary will provide the officers and staff required to deliver operational and other policing services.
- The Force Management Statement, which determines resources required to meet current and future demand based on an extensive analysis of operational demand
- The views of the public and other stakeholders.

The work programme supports and informs the Police, Fire and Crime Plan and is underpinned by a Medium Term Financial Forecast, which ensures that funding is aligned to the resources required to deliver policing priorities over a sustainable period.

The Constabulary reviews its vision and strategic activities annually to ensure that they continue to support the Police, Fire and Crime Plan and the Constabulary's priorities. To support this process strategic and

financial planning within the Constabulary are co-ordinated to ensure that the Commissioner's reporting requirements and decision making processes form part of the overall planning cycle of the Constabulary and support the development of the Commissioner's wider Medium Term Financial Strategy.

The Constabulary's monitoring processes enable emerging issues and threats to the achievement of objectives to be quickly identified and appropriate remedial action taken.

Key performance measures are set to support the objectives within the Police, Fire and Crime Plan and the Constabulary's own priorities. This is supported by a comprehensive performance management framework, which is developed jointly with the Commissioner. The performance framework supports the Commissioner in holding the Chief Constable to account for the performance of the Constabulary and is also used to direct and manage activity within the Constabulary through the work programme.

The principles of risk management are fully embedded within the strategy development planning and performance monitoring processes linked to the achievement of organisational objectives. Where specific risks are identified they are integrated with the Constabulary's overall risk management processes.

The Constabulary reviews its governance arrangements on a regular basis to reflect development in the Police, Fire and Crime Plan and to support delivery of its own vision and priorities, adjusting as necessary.

Determining Interventions

The financial regulations set out the consents and arrangements for governance between the Commissioner and the Chief Constable, including specific consents in respect of financial management of the Constabulary budget.

The Constabulary has a Chief Officer Group, which is its strategic decision making body and this is supported by a clearly defined board structure. There are established terms of reference and clear reporting lines to the Chief Officer Group. Reports are presented to Boards on a standard template, which includes details of options evaluation and consultation with all affected business areas to ensure that decisions are robust and the implications fully understood.

Task and Finish Groups and Steering Groups are set up to ensure that specific priorities are delivered. Members of these groups include police staff and officers from all ranks and level, representing decision

makers and practitioners. The groups report into the permanent governance framework to ensure effective and co-ordinated decision making.

The decision making authority and duties to be carried out by individual officers on behalf of the Chief Constable are set out in the Chief Constable's Scheme of Delegation, budget management responsibilities and budget protocols.

In the operational environment the Constabulary utilises the National Decision Making Model (developed by the NPCC Ethics Portfolio and National Risk Co-ordination Group) supported by the THRIVESC (threat, harm, risk, investigative opportunity, vulnerability engagement, safeguarding and ethical crime recording) principles when determining actions. This is a risk assessment framework and decision making process which is used by all police forces across the country. It provides a logical, evidence based approach to making policing decisions and is used by all police officers in their daily work. Further guidance and support to operational decision making is provided through operational policies and standard operating procedures.

The National Intelligence Model (NIM) is a business model for law enforcement and it takes an intelligence-led approach to policing. The tasking and co-ordination process within NIM provides police managers with a decision-making mechanism to manage their business both strategically (national, regional, and Constabulary level) and tactically (basic command unit level (BCU)). Pro-active leadership is an essential requirement of the tasking and co-ordinating process. Management decisions are based on a full understanding of the problems faced and enable managers to prioritise the deployment of resources at their disposal.

The day-to-day allocation of resources across operational policing is directed by a daily force-wide pacesetter meeting which is chaired by the Deputy Chief Constable and is fed from the daily management meetings held within Commands. These forums operate under the 'THRIVE' principles and soft boundaries to ensure flexibility to respond to priorities across the whole force area.

Performance, outcomes and costs are monitored and benchmarked through a framework which includes external comparators based on HMICFRS Value for Money Profiles, Police Effectiveness, Efficiency and Legitimacy (PEEL) inspection reports and an Annual Value for Money Conclusion from the External Auditors. The results of these inspections are used to inform and plan both medium and longer term resource allocation processes principally through the Futures Programme and more immediate interventions in response to inspection findings.

Optimising achievement of intended outcomes

The Constabulary's Medium Term Financial Planning process is fully integrated with the Commissioner's Medium Term Financial Strategy and wider business planning within the Constabulary. Consistent planning assumptions particularly in relation to the estimation of overall funding are utilised to ensure that the development of business strategies takes place in the context of the resources available and support the development of the Commissioner's wider Medium Term Financial Strategy.

The Constabulary prepares a detailed budget proposal for the Commissioner. The proposal is based upon a zero based budget approach, working closely with the business and functional managers to forecast operational requirements over 5 years for revenue budgets and 10 years for capital expenditure.

The Futures Programme, which sits across all workstreams within the Force Strategy is critical to the delivery of a balanced and sustainable budget and is subject to detailed financial scrutiny as part of the budget planning process.

The final budget proposal is developed through an iterative process of on-going dialogue between the Commissioner and Chief Constable in producing the Medium Term Financial Strategy, which takes into consideration:

- Estimates of funding both through government grant settlements and council tax.
- Service priorities and delivery plans.
- Financial and business risks.
- Futures Programme savings.
- The impact on numbers of Officers, PCSOs and staff.

Ultimately, the Medium-Term Financial Planning process seeks to align resources to strategic priorities, ensure that decisions on resources, services, performance and expected outcomes are based on a robust understanding of risks to and affordability of future plans.

Principle E: Developing the entity's capacity including the capability of its leadership and the individuals within it.

Constabularies need appropriate structures and leadership, as well as people with the right skills, appropriate qualifications and mindset, to operate efficiently and effectively and achieve their intended outcomes within the specified periods. Chief Constables must ensure that they have both the capacity to fulfil their mandate and to make certain that there are policies in place to guarantee that management has the operational capacity for the entity as a whole. Because both individuals and the environment in which Chief Constables operate will change over time, there will be a continuous need to develop its capacity as well as the skills and experience of individual staff members. Leadership is strengthened by the participation of people with many different types of backgrounds, reflecting the structure and diversity of their communities.

Developing the Entity's capacity

The Force Management Statement is reviewed annually and establishes the resources required across all functions based on current demand and identified future demand trends. The process is the cornerstone of annual resource allocation and identifies the numbers and type of resource required for the short and medium term. The results inform workforce and training planning.

The Constabulary's services are subject to independent review by His Majesty's Inspectorate of Constabulary and Fire and Rescue Services (HMICFRS) and by internal audit, which is provided by MIAA. A Standards, Insight and Performance Command has been established and re-enforces the work of external inspectorates through a programme of self-assessments and internal inspections, which ensure that both internally identified service improvements and recommendations from external reviews are acted upon. The Constabulary has developed and agreed a Futures Programme which aims to secure maximum value from the resources available to it. The programme utilises HMICFRS Value for Money profiles and Police Objective Analysis data, to benchmark resources allocations across all functions in relation to other forces. The conclusions of this work are reported to the Chief Officer Group and the Joint Audit Committee and are used as a basis for identifying areas with the potential to deliver savings through the Futures Programme.

The Constabulary is open to the idea of collaboration with other forces and organisations as a means of delivering more efficient services. Collaborative opportunities which deliver benefits to Cumbria are actively pursued.

From 1st April 2023 the Chief Constable has had a separate Constabulary Chief Finance Officer (CFO) whereas previously the role was shared with the PFCC. The Chief Constable's Chief Finance Officer (CFO) is a member of the Chartered Institute of Public Finance and Accountancy (CIPFA). The CFO operates within the guidance set out in the CIPFA Statement on the Role of the Chief Finance Officer of the Constabulary.

Procurement regulations are developed jointly with the Commissioner and supported by a commercial strategy. The regulations incorporate procurement policy and procedures that aim to ensure best value in the use of public money. The regulations also promote an open and transparent approach to procurement and the highest standards of integrity and ethical behaviour for all those involved.

Developing the Entity's Leadership

The key functions and roles of the Chief Constable and the Police, Fire and Crime Commissioner are set out in the Police Reform and Social Responsibility Act 2011 (PR&SRA) and the Policing Protocol Order 2011 (PPO). The PRSA and the PPO also set out the function and roles of statutory officers.

The Constabulary's Statutory Officers are required to complete the National Police Chief's Council (NPCC) Police Executive leadership Programme before they are permitted to undertake Chief Officer roles on a permanent basis. This course is designed to ensure that senior officers are equipped with the requisite leadership skills and competencies to undertake senior officer roles.

Other senior officers and staff posts have clear and accurate job descriptions and are recruited to on the basis of relevant knowledge, experience and qualifications.

The Constabulary fully utilises the College of Policing leadership programmes to develop its senior officers and staff. The Constabulary ensures that senior uniformed officers and detectives maintain their national accreditation to provide strategic command for major and critical incidents and serious investigations.

The Chief Constable is statutorily required to appoint a Chief Finance Officer (CFO). The CFO's responsibilities and job profile are based on the Home Office Financial Management Code of Practice and the CIPFA Statement on the Role of the CFO. The CFO is the financial advisor to the Chief Constable and has statutory responsibility to ensure that the financial affairs of the Chief Constable are properly administered, having regard to their probity, legality and appropriate standards. The CFO provides all financial advice and ensures systems of internal financial control are effective.

The Chief Constable is supported by the Director of Legal Services, who is a qualified solicitor, member of the Law Society and member of the Solicitor's Regulatory Authority. The Director of Legal Services has responsibility for advising the Chief Constable on legal matters. The Director of Legal Services is able to scrutinise the legal implications of all strategic decisions.

Members of the Joint Audit Committee and Community Scrutiny Panel are recruited for the specific skills and experience requirements to fulfil their respective roles. These bodies have clear terms of reference and membership which are consistent with best practice. Members are supported in their professional development through provision of seminars prior to meetings, access to relevant publications and external training.

The Constabulary has a leadership development programme which aims to ensure that managers at all levels within the organisation are equipped with the knowledge and skills required to lead. This leadership and skills programme provides bespoke training for aspiring Sergeants and Inspectors to give them the best platform to perform those critical roles. Police staff supervisors are also able to access elements of this training. A series of development workshops are also delivered for experienced supervisors to help deliver CPD and key training.

A toolkit of development options exists such as mentoring and 360 degree feedback to support current and aspiring leaders.

Developing the Capability of Individuals within the entity.

The Constabulary has a range of human resources (HR) policies which provide a framework to ensure that officers and staff are treated in a fair and transparent way in accordance with employment legislation. On a weekly basis the Force Resourcing Meeting chaired by the DCC considers staffing changes. Part of the terms of reference of this group is to ensure that promotions and appointments processes are equitable. The monthly workforce board receives an overview of staffing levels, recruitment pipelines and sickness data.

All HR policies are reviewed on a periodic basis to ensure that they remain fit for purpose and support officers and staff in working effectively, these policy are approved through the monthly workforce boards.

The Constabulary has a well-defined organisational structure with clear reporting lines. All officers and staff within the Constabulary have job profiles, which define their roles and include the policing professional framework.

There are national pay scales for police officers and police staff. Terms and conditions of employment are approved nationally for Police Officers, via Police Regulations and locally for police staff, in conjunction with employee representatives. The Constabulary operates an approved job evaluation scheme.

All Constabulary posts are recruited to on the basis of accurate role profiles. The profiles specify appropriate essential and desirable skills, experience and qualifications to ensure that employees are able to deliver their responsibilities effectively. Membership of relevant professional bodies ensure access to up to date Codes of Practice, guidance and professional standards in all areas of business.

The Constabulary is committed to the principles of 'equal opportunities' in relation to the recruitment of officers and staff, accordingly promotion and appointments are undertaken in an open and transparent way in accordance with HR policies.

Staff Associations are represented at the Constabulary's main governance boards, which ensures that they are part of the decision making processes. The Constabulary and Commissioner have adopted joint HR policies to provide a framework for all issues related to employee management and terms and conditions. This includes policies on how staff and staff associations will be engaged in any change process. Trade unions and staff associations are consulted during any reviews of HR policies. There is a general principle of on-going consultation and engagement during any business change, which encourages employees to contribute ideas and suggestions to improve performance.

The Constabulary is committed to ensuring that the capacity and capability of its officers and staff are developed to enable them to operate effectively through the People Strategy.

Police Officer and Police Community Support Officer recruits are provided with rigorous initial training on operational policing and the values and standards of conduct expected of them.

The Constabulary's PDR processes for officers and staff enable training and development requirements to be identified and managed, which are aligned to the role or agreed objectives and actions.

The Constabulary has an approved training plan, which is updated on a regular basis and aims to address the development needs of officers and staff. The training programme also seeks to provide refresher courses, which ensure that specialist skills are maintained in accordance with current national standards.

Areas of corporate training and development need are addressed by a range of training solutions including e-learning, CPD, classroom and assessed qualifications, which can be accessed by all officers and staff.

A Performance Development Review (PDR) process has been refreshed to reflect the expectations within the Force strategy. The PDR is based around the national competency and values framework and takes account of performance, well-being and learning requirements. It outlines that all leaders have a responsibility to develop and support our workforce in a way that champions continuous improvement, establishes a strong ethical and professional culture and also promotes health and wellbeing.

The Constabulary recognises the importance of supporting the health and well-being of all employees in contributing to an effective workforce. As part of the People Strategy, all HR policies take account of employee welfare for example provision, where possible for flexible working for staff and officers. The Health and Safety department provide on-going monitoring and advice in relation to safety within the workplace. The Constabulary maintains an occupational health function, which provides advice and support to managers and staff in relation to specific psychological and physiotherapy issues.

Principle F: Managing risks and performance through robust internal control and strong public financial management.

Chief Constables need to ensure that the entities and governance structures that they oversee have implemented, and can sustain, an effective performance management system that facilitates effective and efficient delivery of planned services. Risk management and internal control are important and integral parts of a performance management system and crucial to the achievement of outcomes. They consist of an ongoing process designed to identify and address significant risks involved in achieving outcomes. A strong system of financial management is essential for the implementation of policies and the achievement of intended outcomes, as it will enforce financial discipline, strategic allocation of resources, efficient service delivery and accountability.

Managing risk

The Constabulary's risk management policy sets out the overall arrangements for managing risk within the Constabulary and is based on good practice identified by the Institute of Risk Management. The policy incorporates a clear framework of objectives, designated roles and responsibilities for risk management and provides a mechanism for evaluating and scoring risks to support decision making in respect of mitigating action. Identified risks are logged on a risk register with clear ownership and reviewed regularly as a standing item at strategic and management meetings. Individual project boards, departments and commands each maintain risk registers, which are updated on a quarterly basis and integrated with the corporate risk management process. Specific risks can be escalated to a strategic risk register for consideration by the Chief Officer Group.

Arrangements for risk management are subject to review by the Joint Audit Committee. The Constabulary's Strategic Risk Register is presented to and updated by Chief Officers three times per year. The Strategic Risk Register is then presented to the Joint Audit Committee twice a year.

The Constabulary maintains comprehensive business continuity plans for all service areas, which aim to ensure that critical activities are maintained in a range of adverse scenarios.

Managing performance

Clear lines of accountability and processes are in place within the Constabulary to monitor and manage delivery of operational and business objectives including:

- A board structure linked to the delivery of strategic priorities with clear terms of reference / areas of responsibility.
- Chief Officer's holding managers to account for delivery of the work programme in Strategic Performance Board.
- Performance management figures are published on dashboards available to all Constabulary officers and staff, and the Commissioner, and are updated daily. These figures are subject to statistical analysis to identify areas where significant change/demand is occurring.
- Regular meetings between Chief Officers and their senior management to discuss progress on the work programme.
- A Daily Pacesetter Meeting which ensures that tactical level operational resources are continuously prioritised and directed towards meeting force objectives.
- Six monthly performance reports which are presented to the Chief Officer Group and the Commissioner's Public Accountability Conference.
- Thematic performance reports which are presented to the Chief Officer Group, Executive Board Police and the Commissioner's Public Accountability Conference and published on the Commissioner's website.
- An individual Officer Performance Dashboard has been developed and implemented. This enables sergeants to quickly view their officers' workload and form the basis of regular one to one performance meetings, improving supervision and productivity.
- His Majesty's Inspectorate of Constabulary and Fire and Rescue Services (HMICFRS) also continuously monitors Constabulary performance against other forces and carries out an annual overarching Police Effectiveness, Efficiency and Legitimacy (PEEL) inspection of the Constabulary together with thematic inspections agreed with the Home Secretary. Action plans are developed in response to inspections and are subject to regular review.
- User Satisfaction Performance measures are included in the Performance Management Framework. The Constabulary also pursues strategies to engage effectively with service users including crime surveys and community meetings, with the aim of better meeting the needs of users. A procedure for complaints enables the public to raise concerns about services.
- The Constabulary has a Standards, Insight and Performance Command (SIP) with the aim of providing assurance that operational systems and processes are operating effectively to deliver a high quality policing service.
- A Cumbria Constabulary Improvement Plan (CCIP) which collates all improvement actions from internal and external sources. The plan is managed by the Business Improvement Unit (within SIP), which requests and coordinates progress updates from action owners and reports results to senior management.

- The Financial Regulations clearly defines the purpose of the funding provided by the Commissioner to the Chief Constable and sets out information and monitoring requirements to ensure funding is targeted on activities that support the priorities and outcomes within the Police, Fire and Crime Plan.

Reports are produced on a standard template with the aim of providing appropriate information to decision makers including evaluation of options, consideration of risks and consultation from specialist support functions to ensure that the full implications of decisions are understood.

The Police, Fire and Crime Plan recognises the importance of partnership working between the Chief Constable and the Commissioner to develop the future direction of policing policy and strategy that takes account of public priorities. A Executive Board Police meeting structure comprising the Deputy Chief Constable, Assistant Chief Constable(s), Directors, the Commissioner's Chief Executive, the PFCCs Chief Finance Officer and the Constabulary Chief Finance Officer supports joint working and facilitates the arrangements for accountability and performance monitoring. The board provides a mechanism through which the Chief Constable provides briefings on matters or investigations over which the PFCC may need to provide public assurance.

The Constabulary's Futures Programme is critical to the delivery of an effective policing service at a time of scarce resource. All change proposals are developed in accordance with principles set out in the Constabulary Change Management policy, which includes comprehensive consultation with all stakeholders and scrutiny through the Force governance boards. All changes are subject to post implementation review.

Robust internal control

The Chief Constable is responsible for reviewing the governance framework and including the system of internal control. This work is informed by the work of Chief Officers and senior managers who undertake an over-arching review of key controls and governance arrangements in support of the key principles in this code.

The Constabulary's arrangements for risk management, internal control and anti-fraud and corruption are reviewed on a cyclical basis through the wider arrangements for assurance of the governance framework.

Senior managers with responsibility for financial systems provide annual management assurances using a CIPFA internal control framework as part of this process. An annual fraud risk assessment is undertaken as

part of the accounts closure process by the Constabulary Chief Finance Officer and reviewed by external auditors.

A joint internal audit service is commissioned in conjunction with the Commissioner, which is provided by MIAA. This provides assurance in relation to the Constabulary's internal control environment, arrangements for risk management and governance. The internal audit plan is developed on a risk basis following consultation with stakeholders and covers all areas of operation. The Director of Audit provides an annual overall opinion of the adequacy and effectiveness robustness of the internal control framework.

A Joint Audit Committee operates in line with Chartered Institute of Public Finance and Accountancy Code of Practice and the Home Office Financial Management Code of Practice. In line with the Home Office Code, the Committee fulfils the functions of an Audit Committee for both the Commissioner and the Chief Constable. From April 2023, this role has been expanded to cover similar responsibilities in respect of Cumbria Commissioner Fire and Rescue Authority. As part its terms of reference the committee reviews:

- The Constabulary's key governance documents on a cyclical basis.
- The Constabulary's risk management arrangements.
- Annual reviews of the effectiveness of arrangements for risk, governance and internal control.
- internal and external audit reports and updates on progress in implementing audit recommendations.

The committee undertakes an annual self-assessment to ensure on-going compliance with the CIPFA framework for Police Audit Committees.

Managing Data

The Constabulary has adopted an Information Management Strategy which has the principal objectives of ensuring that information is managed:

- within a framework for identifying, considering and owning information and information risk.
- consistently across the organisation.
- to support policing objectives by providing reliable information at the point of need.
- in compliance with relevant legislation concerning the handling and use of data. For example General Data Protection Regulations. In particular data will only be collected or held for either 'lawful policing purposes' as defined by the Management of Police Information (MOPI) Code of Practice (2005) or to support administrative functions.

- Providing guidance to personnel on the correct use of data, sharing it lawfully and protecting it from compromise.

The Constabulary maintains appropriate physical and digital safeguards to protect data from unauthorised access and misuse. An Information Security Board meets regularly to respond to emerging issues and threats in relation to the management and sharing of data.

The accuracy of police data is critical to the achievement of policing objectives and maintaining public confidence. To ensure that data is managed in an accurate and timely manner, the Constabulary maintains a number of specialist units including:

- a Crime Management Support Unit whose role is to ensure that crimes are recorded in compliance with National Crime Reporting Standards and, incidents in compliance with National Standards of Incident Recording.
- officers and staff in a criminal justice unit whose role is to support the criminal justice process and to ensure the timely and effective progression of criminal cases through the criminal justice system meeting the evidential requirements of both magistrates and crown courts.
- an Information Management Officer and Team who ensure that performance data is collated and reported on a consistent basis.
- a Central Services Department which manages transactional data on behalf of a number of support functions.

Strong public financial management

Arrangements for financial management support the Chief Constable in achieving objectives and delivering strong operational and financial performance. The arrangements for financial management are codified within a suite of financial governance documents, which comply with CIPFA Codes of Practice and ensure that all officers and staff are aware of their responsibilities in this regard.

The governance documents include a scheme of delegation and financial regulations between the Commissioner and Constabulary, which sets out the financial consents and responsibilities for financial management between the Commissioner and Chief Constable. This ensures that funding provided to the Chief Constable is directed towards the policing strategy and priorities set out in the Police, Fire and Crime Plan.

The Constabulary's budget and medium term financial position provide a framework for all Constabulary decisions. The Constabulary Chief Finance Officer is a member of the Chief Officer Group ensuring that the financial position and risks are clearly understood and support the operational decision making process.

The Constabulary and Commissioner have a shared financial services team which provides a full spectrum of financial management services to both organisations including budget planning, budget monitoring, preparation of the statutory financial statements and treasury management. There is financial representation at all decision making and project boards and report templates incorporate the financial implications of proposals.

The management of all Constabulary budgets (including capital projects) are assigned to named budget-holders, who are required to formally accept their responsibilities including any arrangements for sub-delegation. These responsibilities require regular monitoring and reporting of financial information, enabling early identification of variances. Each budget-holder receives support from a designated member of the financial services team.

The financial services team works closely with both operational and support functions to ensure that business planning and financial planning processes, such as workforce planning and the preparation of strategies are fully integrated.

All financial systems and process are subject to risk based cyclical review by internal audit to provide assurance that financial controls are operating effectively, which also forms part of the arrangements reviewed by external audit in forming their conclusions on the financial statements and value for money.

Principle G: Implementing good practices in transparency, reporting and audit to deliver effective accountability.

Accountability is about ensuring that those making decisions and delivering services are answerable for them. Effective accountability is concerned not only with reporting on actions completed, but also ensuring that stakeholders are able to understand and respond as the organisation plans and carries out its activities in a transparent manner. Both external and internal audit contribute to effective accountability.

Implementing good practice in transparency

In all communications to the public, the Constabulary seeks to ensure that the content and reporting style are as clear and easily understandable as possible. A number of different communication channels are used to maximise public engagement.

The Constabulary's website, Facebook, Instagram, LinkedIn, X (Twitter) and now TikTok accounts aim to provide key information to the public in a readily accessible format.

The Constabulary is committed to open and transparent governance and complies with the Freedom of Information Act 2000. A dedicated function within the Constabulary's Information Management function aims to ensure that requests for information under the Act are responded to promptly, proportionately and accurately.

The Constabulary complies with the Government's transparency agenda in respect of publishing details of all expenditure over £500.

Implementing good practices in reporting

The principal means by which the Chief Constable formally reports to the public is through the Commissioner's Annual Report, which incorporates activities, performance and achievements of the Constabulary. The annual report presents outcomes achieved against an agreed framework of targets and measures.

The Constabulary publishes an Annual Governance Statement (AGS) alongside its Statement of Accounts. This document outlines the measures in place to ensure compliance with its Code of Corporate Governance. The AGS also incorporates an action plan of work which will be undertaken in the following financial year to

enhance its governance arrangements. The AGS is subject to scrutiny by the Joint Audit Committee prior to publication.

The Constabulary is subject to the Accounts and Audit (England) Regulations 2015 and prepares a set of single entity accounts in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting and are subject to external audit.

The Constabulary's financial statements include a narrative statement, which provides an overview of financial and organisational performance in a concise and easily understandable format.

Assurance and effective accountability

Grant Thornton UK LLP are the external auditors appointed to both the Police, Fire and Crime Commissioner for Cumbria and the Chief Constable of Cumbria Constabulary to report key matters arising from the audits of the Commissioner and Chief Constable's financial statements. The external auditors also reach a formal conclusion on whether the Commissioner and Chief Constable have put in place proper arrangements to secure economy, efficiency and effectiveness in the use of resources. These are presented in the External Auditor's Annual Report. The external auditor's opinion on the financial statements is presented in the Independent Auditor's Report published in the financial statements. The Joint Audit Committee monitors the implementation of recommendations arising from the audit.

The Constabulary has joint arrangements for internal audit in place in conjunction with the Commissioner. This service is provided by MIAA central to this function is an annual risk based audit plan, which complies with the Public Sector Internal Audit Standard. The Director of Audit reports to the Joint Audit Committee on their findings, including recommendations for improvements. The Committee monitors the implementation of audit recommendations. Internal Audit makes an annual assessment and reports on the overall internal control environment and arrangements for risk management.

The Constabulary is subject to review by His Majesty's Inspectorate of Constabulary and Fire and Rescue Services (HMICFRS), who produced themed reviews and an annual overall assessment of Police Efficiency, Effectiveness and Legitimacy (PEEL). HMICFRS reports are reviewed by the Joint Audit Committee. Action plans are developed to respond to HMICFRS recommendations. Where appropriate the Constabulary engages peer reviews of specific activities or functions to provide additional assurance. The Constabulary's Standards, Insight and Performance Command monitors the implementation of recommendations, which are also reported to the Commissioner's Public Accountability Conference and the Joint Audit Committee.

The Community Scrutiny Panel also monitors and reports on specific areas of activity, such as complaints handling and ethical issues.
