Efficiency – Cause for Concern

At time of inspection no clarity about future governance arrangements meant HMICFRS could not guarantee no subsequent risk to the public

Remedy - By March 2023, provide an update that sets out its financial position before the new governance arrangements come into place

People – Cause for Concern

At the time of inspection the Service could not assure HMI that staff were maintaining their risk critical skills

Remedy - Detailed action plan put in place, reinspection to take place in March 2023

People – Cause for Concern

At the time of inspection the Service could not assure HMI that staff were maintaining their risk critical skills

- 1.The Service will review how it uses its training software (PDR Pro) to ensure it is fit for purpose for the needs of the workforce and is able to provide accurate information to allow informed decision making
- 2.The Service will review its approach to BA training and ensure any new policy is fit for purpose
- 3.The Service will review its approach to Driver training and ensure any new policy is fit for purpose
- 4.The Service will review holistically its approach to workforce training for all risk critical skills
- 5.The Service will review its approach to the use of “Red Peaks”
- 6.The Service will develop a comprehensive training plan for 2023/24 that reflects any learning from addressing this Cause for Concern
- 7.The service will ensure that it has an effective communication plan in place to secure the engagement of the workforce during and following the implementation of this action plan

BOTH CAUSES OF CONCERN FULLY LIFTED

Cause for Concern – Both Causes of Concern lifted

We found appropriate and robust governance arrangements in place to monitor progress against both causes of concern.

We found the detailed action plan for risk-critical skills to be well managed and implemented.

We are pleased with the steps Cumbria Fire and Rescue Service has taken to address both causes of concern. We recognise the considerable work the service has completed to improve. We are also pleased to note the positive way in which staff engaged with us. They spoke positively of the support and information they had received from service leaders.

HMICFRS Improvement Action Plan - Effectiveness

Area for Improvement	Background	Critical Success Criteria	Responsible	Colleagues Involved	Time Scale
Develop a clear prevention strategy targeting people most at risk and ensure activity is proportionate to reduce that risk	Previous good performance. Focus on quantity. No consistent evaluation	Strategy signed off as part of CRMP process	T AM Ian Seel	GM Mike Clusker	Mar-24
Improve the way it evaluates and shares learning from operational performance	Operational Assurance historically has sat under Service Delivery, which has presented issues from the quality of Assurance and critical review of service Operational Performance. In September 2022 the Safety, Assurance and Performance Directorate was established, a mechanism to critical review and assurance performance and Health & Safety has been created in the form of the Operational Assurance Group (OAG). The OAG is the conduit that feeds into Learning & Development sharing Operational Learning.	Measured successful embedding of the OAG and resulting Operational Learning, Culture and sharing of critical information.	AM Stuart Hook	T GM Owen McCarney	Apr-24
Ensure it understands what it needs to do to adopt NOG including JOL and NOL and put in place plan to do so	The newly established Safety, Assurance and Performance directorate ensures the service reports into JOL and NOL, and shares Operational learning through the OAG, with subject matter experts that sit within the group. Service is committed to a NOG implementation project which is governed through Program Board to delivered the Operational Planning Team as per the NOG implementation Plan.	NOG Product Pack design agreed and implemented. NOG product packs created, implemented and embedded service wide.	AM Stuart Hook	GM Tony Patterson	Apr-24
Ensure Fire Control has direct access to relevant risk information	Regionally, specific service operational documents on specific risk have not been shared with NWFC, though documents are available to crews and Flexi-Duty Officers.	Letter, signed off by PO will confirm Service's/Regional approach with North West Fire Control	GM Tony Paterson	GM Tony Paterson	Jul-23
Improve how it engages with local communities to build risk	Historic low response rate. No regular engagement programme	Improved response rate to Consultation. Greater community engagement	Head of Assurance and Performance - Mark Clement	Comms Team - OPFCC	Mar-24
Evaluate its prevention activity	No comprehensive evaluation. Focus on Council Plan target 10,000	Review HSV target. NFCC evaluation methodology	T AM Ian Seel	GM Mike Clusker	Mar-24
Ensure it allocates enough resources to meet its prevention strategy	Historic focus on Protection. Response to Grenfell as good performance Prevention seen	Successful delivery of strategy. Improved HMICFRS outcomes	T AM Ian Seel	GM Mike Clusker	Ongoing

HMICFRS Improvement Action Plan - People

Area for Improvement	Background	Critical Success Criteria	Responsible	Colleagues Involved	Time Scale
Make improvements to the way it collects equality data to understand workforce demographics and needs	Limited and inconsistent EDI data available, staffing profile, recruitment and promotions and the usage of data varies. Data has to be manually analysed e.g. recruitment we need good quality data for gender pay gap report, and annual Equality report (legal requirements)	Better quality and consistent data by role and grade for recruitment, promotion and staff profile. Should be based on Home Office returns, this will ensure consistency across all data and any comparisons being made externally. We may need to review local data differently to review specific issues.	EDI Manager Mohammed Dhalech	Head of People and Talent Oversight EDI Board	October 2023 data available by February 2024
The Service should make sure its values and behaviours are understood and demonstrated by all staff.	Carried over from previous action plan. Historically difficult to measure, ad hoc approach to engagement	Effective engagement with staff. Development of methodology to determine staff by in. Improved performance in next round of HMICFRS inspections	Head of People and Talent - Kristine Ward	All Member of SLT	Apr-24
The Service should develop a system to support and develop high potential individuals	Carried over from previous action plan. Ad hoc examples of good practice, particularly grey book staff. No consistent approach	Fully embedded system, recognised by all staff. Applicable to grey and green book staff	Head of People and Talent - Kristine Ward	People and Talent team	Apr-24
Ensure robust processes in place to undertake EIAs and review actions agreed as result	Actions are the responsibility of the owner to complete and monitor the actions ensure this informs the improvement in services, initiatives, polices and strategies. challenging to monitor all the actions.
