DECISION TITLE: Police & Fire DDaT Collaboration Programme

Executive Summary: (no more than 100 words)

The Police and Fire DDaT Collaboration Programme business case assessed options for the future delivery of Fire digital services. The analysis identified that a full technical transition away from the current Council-provided model would involve significant cost, complexity, and delivery risk, with limited demonstrable benefit.

The Business Case, including the preferred option, was approved by the Programme Board, identifying Option 2 – to strengthen and formalise existing arrangements with the Council as the most viable and proportionate approach. This position was subsequently supported by the Cumbria Constabulary Chief Officer Group and Cumbria Fire & Rescue Service Senior Leadership Team.

This report seeks approval of that approach for the immediate term, with a commitment to review at a later stage.

Recommendation:

The Commissioner is asked to:

- Approve the recommendation to proceed with **Option 2 – to strengthen and formalise existing arrangements with Cumberland Council** for the delivery of Fire DDaT services.
- Note that this position reflects the outcome of the Business Case, which was approved by the Programme Board, and subsequently supported by the Cumbria Constabulary Chief Officer Group and Cumbria Fire & Rescue Service Senior Leadership Team.
- Note that this position is proposed for the immediate term and will be reviewed at a later stage following devolution.
- Note that there will be a budgetary implication to continue the SLA with Cumberland.
