

Cumbria Office of the Police, Fire and Crime
Commissioner
Code of Corporate Governance 2025/26

Foreword

Welcome and thank you for taking the time to read the Police, Fire and Crime Commissioner for Cumbria's Code of Corporate Governance. I am pleased to introduce this Code, which sets out the Commissioner's commitment to continue to uphold the highest possible standards of good governance. This document clearly demonstrates the Commissioner's and the senior management team drive to ensure that this is in place. Good governance is about how the Commissioner will ensure that he is doing the right things, in the right way, for the communities he serves, in a timely, inclusive, open, honest and accountable way.

The Code provides clarity about how the Commissioner and Chief Constable will govern their organisations both jointly and separately, in accordance with their statutory responsibilities. It will do this by highlighting the key enablers for ensuring good governance. The Code sets out how the organisations will govern, using the seven good governance principles as the structure for setting out the statutory framework and local arrangements.

Robust governance enables the Commissioner to pursue his vision effectively as well as underpinning that vision with mechanisms for control and management of risk.

Gill Shearer

Chief Executive and Monitoring Officer

Office of the Police, Fire and Crime Commissioner

Introduction

The Police Reform and Social Responsibility Act 2011 (PR&SRA) established Police and Crime Commissioners as elected officials with statutory functions and responsibilities for Policing and Crime within their area. Those responsibilities include: setting the strategic direction and objectives for policing and crime and disorder reduction in their area; maintaining the police force; and holding the Chief Constable to account. Police and Crime Commissioners also have wider responsibility for community safety, enhancing criminal justice and supporting victims.

The statutory and regulatory framework setting out the responsibilities, powers and duties of Police and Crime Commissioners is continually developing. The PR&SRA is supported by the Policing Protocol Order 2011, the Home Office Strategic Policing Requirement 2015 and the Home Office Financial Management Code of Practice 2018. The Anti-Social Behaviour, Crime and Policing Act 2014 has developed and conferred further powers in respect of the wider responsibilities of Police and Crime Commissioners. These powers have been extended through the Policing and Crime Act 2017.

The Police, Fire and Crime Commissioner for Cumbria (the Commissioner) is responsible for ensuring that business is conducted in accordance with this statutory and regulatory framework and in accordance with proper standards. This includes ensuring that public money is safeguarded, properly accounted for and used economically, efficiently and effectively. In fulfilling this overall responsibility, the Commissioner is responsible for putting in place proper arrangements for governance, including risk management and the arrangements for ensuring the delivery of the functions and duties of his office.

In doing this, the Commissioner approves and adopts annually this Code of Corporate Governance, 'The Code'. The Code gives clarity to the way the Commissioner governs and sets out the frameworks that are in place to support the overall arrangements for the Cumbria Office of the Police, Fire and Crime Commissioner (COPFCC). The Code is based on the core principles of governance set out within the CIPFA/SOLACE Delivering Good Governance in Local Government Framework 2016. The Code is appended with a schematic that sets out diagrammatically all the key elements of the governance framework.

On an annual basis the Commissioner will produce an Annual Governance Statement (AGS). The AGS reviews the effectiveness of the arrangements for governance and sets out how this Code of Corporate Governance has been complied with.

The Code of Corporate Governance

This code of corporate governance sets out how the Police, Fire and Crime Commissioner will govern. It is based on the seven good governance core principles highlighted by the CIPFA/SOLACE Delivering Good Governance in Local Government Framework 2016 and supported by the Nolan Principles of Public Life. This Code uses those principles of governance as the structure for setting out the statutory framework and local arrangements that are in place to achieve them.

The seven good governance principles are:

- Principle A: Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law
- Principle B: Ensuring openness and comprehensive stakeholder engagement
- Principle C: Defining outcomes in terms of sustainable economic, social, and environmental benefits
- Principle D: Determining the interventions necessary to optimise the achievement of the intended outcomes
- Principle E: Developing the entity's capacity, including the capability of its leadership and the individuals within it
- Principle F: Managing risks and performance through robust internal control and strong public financial management
- Principle G: Implementing good practices in transparency, reporting, and audit to deliver effective accountability

NOLAN PRINCIPLES OF PUBLIC LIFE

SELFLESSNESS: Holders of public office should act solely in terms of the public interest. They should not do so in order to gain financial or other material benefits for themselves, their family, or their friends.

INTEGRITY: Holders of public office should not place themselves under any financial or other obligation to outside individuals or organisations that might seek to influence them in the performance of their official duties.

OBJECTIVITY: In carrying out public business, including making public appointments, awarding contracts, or recommending individuals for rewards and benefits, holders of public office should make choices on merit.

ACCOUNTABILITY: Holders of public office are accountable for their decisions and actions to the public and must submit themselves to whatever scrutiny is appropriate to their office.

OPENNESS: Holders of public office should be as open as possible about all the decisions and actions that they take. They should give reasons for their decisions and restrict information only when the wider public interest clearly demands it.

HONESTY: Holders of public office have a duty to declare any private interests relating to their public duties and to take steps to resolve any conflicts arising in a way that protects the public interest.

LEADERSHIP: Holders of public office should promote and support these principles by leadership and example.

Principle A: Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law

Police and Crime Commissioners are accountable not only for how much they spend, but also for how they use the resources under their stewardship. This includes accountability for outputs, both positive and negative, and for the outcomes they have achieved. In addition, they have an overarching responsibility to serve the public interest in adhering to the requirements of legislation and government policies. It is essential that, as a whole, they can demonstrate the appropriateness of all their actions and have mechanisms in place to encourage and enforce adherence to ethical values and to respect the rule of law.

Ethics and Integrity

The arrangements for governance within the Office of the Police, Fire and Crime Commissioner are based on a culture of ethics, integrity and acting in the public interest. This is demonstrated and communicated through several policies and codes that set out the standards of conduct and personal behaviour expected in the Commissioner's office. Specifically:

- A Code of Conduct commits to the Nolan Principles of Public Life. The Code sets out Commitments with regard to how people will be treated, the use of resources, disclosure and conflicts of interest, disclosure of information and transparency.
- A Code of Ethics developed by the Association of Police and Crime Commissioners (APCC) has also been adopted by the Commissioner. It sets out how the Commissioner has agreed to

Business Code of Conduct: Staff shall:

Maintain the highest possible standards of probity in all commercial relationships;

Reject business practice which might reasonably be deemed improper and never use authority for personal gain;

Enhance the proficiency and stature of the organisation by acquiring and maintaining technical knowledge and the highest standards of behaviour;

Ensure the highest possible standards of professional competence, including technical and commercial knowledge;

Optimise the use of resources to provide the maximum benefit to the organisation.

abide by the seven standards of conduct recognised as the Nolan Principles.

INTEGRITY: *Holders of public office should not place themselves under any financial or other obligation to outside the individuals organisations that might seek to influence them in the performance of their official duties.*

This Ethical Framework allows transparency in all areas of work of the Police, Fire and Crime Commissioner. These principles encompass the Commissioner's work locally and whilst representing Cumbria in national forums. The principles are listed in the Code of Ethics with examples of how these are achieved.

□ The Commissioner's arrangements for anti-fraud and corruption make clear the duty everyone has with regard to their own conduct and those of others. The arrangements incorporate an anti-fraud and corruption policy and plan covering the culture expected within the organisation and provide contact information for confidential reporting (whistleblowing).

□ Anti-fraud and corruption procedures cover arrangements for integrity in respect of gifts and hospitality, completion of a register of interests, supplier contact and declarations of related party transactions. These ensure staff avoid being engaged in any activity where an actual or perceived conflict may exist and that there is transparency in respect of any personal or business relationships. Staff are reminded on a monthly basis of the need to make declarations.

□ The Office of the Police, Fire and Crime Commissioner is responsible for investigating complaints about the Chief Constable, any appointed Deputy Commissioner, the Office of Cumbria Police, Fire and Crime Commissioner's own staff and Independent Custody Visitors. A formal process exists for dealing with complaints. The arrangements are clearly set out, including the role of the Police, Fire and Crime Panel, on the 'contact us' section within the Commissioner's website. The protocol for managing complaints is set out in the Commissioner's Complaints Policy and reinforces the commitment to upholding the highest ethical standards.

□ Complaints against the Police, Fire & Crime Commissioner are referred by the Commissioner's Monitoring Officer to Westmorland & Furness Council's Monitoring Officer on behalf of the Police, Fire and Crime Panel who investigates the

complaints and then seeks to either resolve them locally with the complainant or refers to the Independent Office of Police Conduct.

□ A Business Code of Conduct supports the Procurement Regulations, re-enforcing the integrity requirements within the anti-fraud and corruption policy in the context of procurement activity.

□ Financial Regulations make arrangements for the proper administration of financial affairs. They also seek to reinforce the standards of conduct in public life, particularly the need for openness, accountability and integrity.

□ Grant regulations are based on a framework that provides minimum standards and terms and conditions for the grant award process that seek to ensure grants are awarded within the public interest.

□ The Commissioner and all staff are required to sign up to an anti-discrimination code that sets out values and standards with regard to the prevention of any kind of discrimination. They also adhere to a Staff Code of Conduct.

All policies and codes are reviewed on a cyclical basis to ensure they are operating effectively. Independent external assurance is provided through the work of an Community Scrutiny Panel and Joint Audit Committee. The purpose of the Community Scrutiny Panel is to promote and influence professional ethics in all aspects of policing and within both organisations. It provides scrutiny and review in respect of the arrangements for codes of conduct, integrity, and complaints. It also provides assurance to the public

that any issues or concerns are highlighted and monitored.

The Joint Audit Committee provides scrutiny and review in respect of the Commissioner's arrangements for anti-fraud and corruption, financial, procurement and grant regulations. Agendas and papers are available to the public on the Commissioner's website to aid transparency.

The leadership values for the organisation have been developed by our staff to support good governance and advocate high standards of integrity and ethical behaviour. They are set out in our Corporate Plan.

All staff within the OPFCC have been appointed following open and transparent appointment processes. Following appointment, staff commit to the various codes of conduct and ethical standards that are in place for the OPFCC. All staff also undertake a structured induction process arranged by the Governance Manager.

Respecting the Rule of Law

The Chief Executive is the Commissioner's Monitoring Officer with responsibility for ensuring that the Commissioner and staff of the Office of the Police, Fire and Crime Commissioner do not contravene any rule of law or engage in any activity that constitutes maladministration or injustice.

The responsibilities of the Chief Executive are codified within legislation, within the Commissioner's scheme of delegation and within the documents comprising the Commissioner's wider governance framework.

The Chief Executive is responsible to the Commissioner for ensuring that agreed procedures are followed and that all applicable statutes and regulations are complied with.

The Chief Executive is supported by an internal legal team and will instruct external legal advisers where there are significant legal complexities or legal risk. The office structure includes an arrangement for a designated Deputy Chief Executive and a post of a Deputy Monitoring Officer to ensure continuity in the delivery of this role in the absence of the Chief Executive.

Our Values

We are a single team with a culture of trust and confidence

We develop the capacity and capability of our office to be effective and recognise high performance

We have empowered staff who are high performing, professional and have high levels of satisfaction in their roles

We embrace and deliver change, achieve national recognition for what we do and are exemplars of best practice

We hold ourselves to account for what we deliver, measuring our outcomes, customer satisfaction and value for money, striving for continuous improvement

We promote our values and demonstrate the values of good governance through upholding high standards of conduct and behaviour

Principle B: Ensuring openness and comprehensive stakeholder engagement

Police, Fire and Crime Commissioners and their Offices are run for the public good, they therefore should ensure openness in their activities. Clear, trusted channels of communication and consultation should be used to engage effectively with all groups of stakeholders, such as individual citizens and service users, as well as institutional stakeholders.

Openness

The Commissioner operates in accordance with the Elected Local Policing Bodies (Specified Information) Orders 2011, 2012, 2013 & 2021 and the guidance provided by the Information Commissioner. This is demonstrated, documented and communicated through an information publication scheme that ensures the openness of all key information to the public and wider stakeholders. This includes information in respect of the Commissioner, his staff, income and expenditure, property, decisions, policies and the independent custody visiting scheme. The Commissioner's Monitoring Officer has overall responsibility for ensuring compliance with the Orders and Scheme.

To ensure transparency of decision making, decisions are recorded and published on the Commissioner's website for public scrutiny. The Police, Fire and Crime Panel may call in any decisions for further public scrutiny.

The Commissioner adopts rigorous standards in his decision-making and all decisions are taken solely in the public interest. This is achieved by adherence to a decision-making policy that sets out the parameters and the application of a set of principles that guide decision making. The approach within the policy adheres to the Good Governance

Standard for Public Services and the Good Administrative Practice 2.

Reports for decision are based on a template that ensures the consequences of any recommendations are clearly explained and that there is clear reasoning and evidence for decisions. This includes relevant financial, legal, human resources, equality, procurement, IT and risk management advice.

Decision Making Policy: Principles of Decision Making

Decision-making will be well informed

The decision-making process will be open and transparent

To have 'due regard' within the decision-making process

Be rigorous and transparent about how the decisions are taken

All decisions of significant public interest will be recorded and published

The PCC will uphold the highest standards of integrity and honesty when taking decisions, as set out in the Nolan Principles

Engaging Comprehensively with Institutional Stakeholders

The Police, Fire and Crime Plan recognises the importance of stakeholder engagement and collaborative working in developing and delivering priorities for the future direction of policing, crime reduction, and supporting victims. The process for development of the Plan includes consultation with the Police, Fire and Crime Panel, wider partners and the Constabulary.

Consultation processes support the development of objectives and outcomes prior to the formal approval and publication of the Plan on the Commissioner's website.

The Plan recognises that in preventing crime and supporting victims a commitment to collaborative working is needed from a range of organisations involved in policing, community safety and criminal justice. The Plan commits to utilising the existing partnership structures across the County to do this wherever possible. This enables the Commissioner and partners to build commitment to shared priorities and to exercise oversight of the delivery of shared outcomes.

As part of these arrangements the Commissioner has signed up to the Cumbria Compact, an agreement and set of principles that govern effective relationships between public and third sector organisations.

Grant agreements govern the funding arrangements with partners and the third sector and set out the purpose, objectives and shared outcomes which that funding is planned to deliver.

Joint boards, collaborative procurement and third sector partnerships are central

to the Commissioning Strategy that seeks to efficiently and effectively deliver the Police, Fire and Crime Plan. The underlying Commissioning Plan uses commissioning approaches and a grant framework that enable partners to determine interventions that will be appropriate and effective in delivering outcomes.

Engaging Stakeholders Effectively including Citizens and Service Users

A Public Engagement Strategy sets out how the Commissioner will make arrangements for obtaining the views of the community on policing, and for obtaining the views of victims of crime.

The strategy aims to ensure clear channels of communication are in place with all sections of the community and other stakeholders. As part of the Public Engagement Strategy, the Commissioner undertakes formal consultation with the public, partners and other stakeholders in respect of the Police, Fire and Crime Plan and the budget.

The OPFCC is instrumental in giving the people of Cumbria the ability to communicate with the Commissioner and plays a key role in ensuring public opinion can influence the Commissioner's decision making. The Office ensures a wide range of engagement approaches so that the Commissioner actively listens, considers and effectively uses the views of the people of Cumbria.

The office plays a critical role in ensuring that two-way communication with communities take place and that the Commissioner is publicly available to speak to communities and individuals.

The OPFCC has responsibility for keeping people informed, ensuring that activities and decisions are transparent and that effective, transparent and accessible arrangements are in place for providing feedback. This includes the statutory requirement of producing and publishing an Annual Report setting out what has been achieved in a 12-month period.

The OPFCC also supports the Commissioner around public affairs, if necessary, highlighting the impacts on policing and people in Cumbria.

A complaints process and quality of service procedure provides clarity over the arrangements to respond to the breadth of concerns raised by local people. If trends are identified these are used to improve customer service from the Constabulary and influence the decisions of the Police, Fire and Crime Commissioner.

Decision Making Policy: Principles of Decision Making

Decision-making will be well informed

The decision-making process will be open and transparent

To have 'due regard' within the decision-making process

Be rigorous and transparent about how the decisions are taken

All decisions of significant public interest will be recorded and published

The PCC will uphold the highest standards of integrity and honesty when taking decisions, as set out in the Nolan Principles

Principle C: Defining outcomes in terms of sustainable economic, social, and environmental benefits

The long-term nature and impact of many of the Police, Fire and Crime Commissioners' responsibilities mean that they should define and plan outcomes and that these should be sustainable. Decisions should contribute to intended benefits and outcomes and remain within the limits of authority and resources. Input from all groups of stakeholders, including citizens, service users, and institutional stakeholders, is vital to the success of this process and in balancing competing demands when determining priorities for the finite resources available

Defining Outcomes

The Police Reform and Social Responsibility Act (PRSR) 2011 and the Policing Protocol Order set out the purpose of the Police and Crime Commissioner, conferring statutory duties and responsibilities. These include the requirement to issue a Police, Fire and Crime Plan. The Plan sets out the vision and strategic direction for policing and reducing crime for the local area. It outlines police and crime objectives, priorities and outcomes for policing and victims that the Commissioner will focus on in carrying out his purpose.

An Accountability Framework has been set to support the objectives within the Police, Fire and Crime Plan. This incorporates a system of reporting against objectives within the Police, Fire and Crime Plan and national Crime and Policing measures which is embedded within a robust accountability and governance structure. The performance framework and HMICFRS inspection and value for money reports support the Commissioner in holding the Chief Constable to account for the performance of the force and its efficiency and effectiveness.

The Commissioner's Police, Fire and Crime Plan can be found on our website at: www.cumbria-pcc.gov.uk

The Police, Fire and Crime Plan is developed alongside a Medium-Term Financial Strategy that ensures funding is aligned to the resources needed to deliver priorities and outcomes. The forecast supports the Commissioner in setting a robust budget and in his purpose of maintaining the force for the Cumbria police area.

A Commissioning Strategy and framework supports the delivery of the Commissioner's wider duties and responsibilities and the objectives and outcomes within the Police, Fire and Crime Plan. The strategy sets out how the Commissioner will work with partners, including community and voluntary sector groups, to deliver activity and interventions that will support victims, improve community safety, reduce crime and enhance criminal justice. The strategy is underpinned by a commissioned services budget and grants programme.

Sustainable economic, social and environmental benefits

A process is in place to support policy and strategy development. Oversight of the central policy record, including compliance with procedure and equality impact assessments, is managed by the Executive Team. This ensures that the sustainability of policies and strategies and the wider benefits and interrelationships across the business are fully understood.

When developing strategies, policies or business plans the Office of the Police, Fire and Crime Commissioner will undertake an impact assessment on such documents prior to their development. The outcomes of these assessments will inform development work and be taken into consideration when policies and strategies are approved. In this way, our policies and strategies provide a framework to support decision making.

The process for making decisions, particularly those that involve expenditure, includes an assessment of the longer-term impact of proposals to ensure sustainability. Decisions on human resource planning, the most significant factor influencing the delivery of sustainable economic, social and environmental benefits, take account of the longer-term financial outlook alongside projections of future turnover. This enables workforce planning and recruitment in a way that supports the economic management of training and supervision requirements and maximises the benefits to the business.

All decision reports include a section which allows the author to identify any equality issues. These will be taken into account by the Commissioner when considering the decision.

To manage risk and ensure transparency of interests in decision making, the Commissioner and officers are required to make declarations where there are or may be perceived to be conflicts of interest. The role of the Monitoring Officer and the Commissioner's Oath of Office further supports decisions being made in the wider interest of the people of Cumbria, rather than representing any particular political interests.

The Police, Fire and Crime Plan and the policy and strategy documents that support it are developed to cover a four-year rolling timeframe and take into account feedback from public consultation and engagement.

All of these documents and the outcomes from consultation are published and are publicly available on the Commissioner's website.

Information is published in a variety of mediums. The OPFCC website has the functionality to assist in the access to information held. The OPFCC would look to assist with translation of information or send information to a third party who can assist them. The COPFCC website has the ability to translate into the main languages.

Principle D: Determining the interventions necessary to optimise the achievement of the intended outcomes.

Police, Fire and Crime Commissioners achieve their intended outcomes by providing a mixture of legal, regulatory, and practical interventions. Determining the right mix of these courses of action is a critically important strategic choice and Commissioners have to make sure intended outcomes are achieved. They need robust decision-making mechanisms to ensure that their defined outcomes can be achieved in a way that provides the best trade-off between the various types of resource inputs while still enabling effective and efficient operations. Decisions made need to be reviewed continually to ensure that achievement of outcomes are optimised

Determining Interventions

The Commissioner sets the strategic direction for Policing and wider interventions within the Police, Fire and Crime Plan. The Commissioner's decision-making policy adopts a set of principles to ensure all decision making is well informed, that options are rigorously considered and information is provided on potential risks.

The Constabulary is the primary provider of policing services and the recipient of the substantial proportion of funding from the Commissioner to deliver the Police, Fire and Crime Plan. Achieving best value through the delivery of an effective policing strategy is a condition of the arrangements for funding between the Commissioner and the Constabulary.

Decisions are made annually on the level of resources and how they should be directed as part of the Commissioner's budget setting process.

The performance, outcomes and costs of the Constabulary are monitored through a framework that includes external comparators (HMICFRS Value for Money Profiles), Police Effectiveness, Efficiency and Legitimacy (PEEL) inspection reports and an annual Value for Money Report from the External Auditors. Recommendations from PEEL inspections are used to review decisions in year on resources and determine whether intervention are needed to respond to inspection findings.

Grant and Procurement Regulations set out a framework for commissioning and procurement activity that supports the achievement of best value and practical interventions to support Police, Fire and Crime Plan outcomes within wider commissioned services. A review of value for money arrangements is reported annually to the Joint Audit Committee, focused on the Constabulary's activities. This provides external oversight of staffing and wider financial resources committed to fulfilling legal and regulatory requirements of the service.

Medium Term Financial Strategy Objectives

To deliver a robust and balanced medium term financial plan and annual budget supported by an in-year reporting framework that monitors its delivery

To ensure arrangements for funding between the Commissioner and Constabulary deliver value for money and support the priorities of the Police and Crime Plan

To ensure capital expenditure plans are robustly scrutinised, fully funded for a minimum of four years and are supported by capital strategies that meet the needs of the business

To maintain a risk assessed level of reserves to meet unplanned expenditure and to provide revenue budget smoothing for intermittent costs

To ensure treasury management activities provide for the security of the Commissioner's funds whilst meeting the case management needs of the Commissioner and Constabulary

To provide a framework for financial governance that ensures the proper administration of the Commissioner's financial affairs

The Medium-Term Financial Strategy sets out the financial plans for revenue and capital expenditure. An annual funding arrangement for the Chief Constable codifies the amounts and conditions of funding based on a financial proposal from the Constabulary. It sets out how the budget will be monitored including financial information and reporting requirements. Financial reporting provides a control to assess the extent to which planning assumptions for the budget have been matched by actual activity and expenditure in year. Further controls over the management of income and expenditure are detailed in the Commissioner's financial regulations. Key financial performance indicators for example prudential indicators, are set as part of the budget process, and monitored on a quarterly basis to ensure they are being met.

The Medium-Term Financial Strategy sets out revenue forecasts of income and expenditure and the key financial assumptions and policies on which the forecasts are based. This supports a strategic approach to operational planning, savings requirements and decision making in support of the objectives within the Police, Fire and Crime Plan. It also ensures that the financial liabilities, risks and the level of provision and reserves within the budget are fully understood. The budget includes a 10-year capital programme aligned to plans for ICT, the estate and fleet, ensuring resources are balanced in the medium and longer term to meet the requirements of the business.

Financial, operational and commissioning plans are developed taking into account the feedback from the public and wider stakeholders. The Engagement Strategy sets out how the Commissioner will engage with a wide

Planning Interventions

A Commissioning Strategy and joint Procurement Regulations set out how services will be planned, procured and delivered. The Safer Cumbria Partnership provides a flexible and supportive mechanism through which services can be developed and delivered with shared risk. Grant and contract management arrangements are in place to monitor and review service quality.

range of people and partners encompassing and including diversity within the County. The Commissioner in his role of consulting with the public uses the guiding principles of we asked, you said, we did as many engagement activities personally involve the Commissioner. To formally support the role of two-way engagement a six-monthly paper is presented to the Commissioner outlining trends from the various forms of engagement and this information is used as an integral part in the process of any key decisions. Further communication tools are used to ensure target audiences are kept up to date of developments and key decisions for the Commissioner.

Optimising Achievement of Intended Outcomes

The Medium-Term Financial Forecast integrates the budget and funding arrangements for the Constabulary with the Commissioner's directly managed budgets. The totality of estimated funding forms the basis for considerations regarding the trade-off between resources for commissioning and resources for policing to optimise outcomes within the Police, Fire and Crime Plan. Strategic priorities within the Plan support decision making on the respective policing and commissioning strategies. This determines for example, the number of police officers, the balance between people resources verses equipment and the balance between supporting victim's verses crime prevention activity.

The budget process is based on a proposal from the Constabulary. It takes a zero-based approach, working closely with the business to forecast operational requirements over 5 years for revenue expenditure and 10 years for capital expenditure. This includes a

series of 'star chambers' providing Chief Officers with the forum through which budget holders can be challenged. Through the budget process targets and plans are developed for savings and consideration is given to growth bids to resource new and changing requirements.

The Medium-Term Financial Strategy includes information on national financial settlements for policing and what is known about settlements in future years. It also sets out the key financial risks that could impact on funding and expenditure nationally and locally. Sensitivity analysis provides information on the potential impact of changes to assumptions. Collectively this supports decisions on resources, services, performance and outcomes and ensures the business has a robust understanding of risks to the affordability of future plans. The Strategy incorporates information on plans for savings and the impact of funding changes for the number of police officers, PCSO's and police staff. This supports an on-going dialogue and monitoring between the Commissioner and Constabulary in respect of the necessary business change and its impact on outcomes and performance.

Through our Commissioning Strategy we engage and consult with partner and provider agencies on support and service provision gaps, this ensures that commissioning objectives and outcomes align with the needs of the local community as well as creating an opportunity for providers to innovate. Commissioning to local based providers ensures the economic, social and environmental well-being of the wider Community. Awarding of Contracts or Grant Agreements are based on the social outcomes and measures which meet local priorities and needs as opposed to financial gains and benefits.

Principle E: Developing the entity's capacity, including the capability of its leadership and the individuals within it

Police, Fire and Crime Commissioners need appropriate structures and leadership, as well as people with the right skills, appropriate qualifications and mindset to operate efficiently and effectively and achieve their intended outcomes within the specified periods. Commissioners must ensure that they have both the capacity to fulfil their mandate and to make certain that there are policies in place to guarantee that management has the operational capacity for the entity as a whole. Both the individuals involved and the environment in which Commissioners operate will change over time, and there will be a continuous need to develop its capacity as well as the skills and experience of the leadership and individual staff members. Leadership is strengthened by the participation of people with many different types of backgrounds, reflecting the structure and diversity of their communities.

Developing the entity's capacity

Legislation provides that the Commissioner must appoint a Chief Executive and a Chief Finance Officer (statutory officers). The Chief Executive is the Commissioner's Head of Staff with responsibility for overall management of the Commissioner's office. The Chief Finance Officer (CFO) operates on a shared basis acting as CFO for both the Commissioner and Cumbria Commissioner Fire and Rescue Authority. Both the Chief Executive and Chief Finance Officer have statutory responsibilities with regards to determining the requirements in respect of staffing resources.

The Chief Executive is a member of the Association of Police and Crime Chief Executives (APACCE) and operates within the APACCE statement on the role of the Chief Executive and Monitoring Officers for Police and Crime Commissioners. The Chief Executive's job profile is based on the APACCE model to ensure the right skills, experience and

qualifications for the role.

The role and functions of the Chief Finance Officer to support the Commissioner's mandate is set out within the Home Office Financial Management Code of Practice and by the Chartered Institute of Public Finance and Accountancy (CIPFA), the CIPFA statement. The job profile for this role is based on the CIPFA Statement. Compliance with the statement is self-assessed on an annual basis and reviewed by the Joint Audit Committee. Professional body subscriptions ensure the Chief Finance Officer has access to up-to-date Codes of Practice, guidance and professional standards.

The structure and arrangements for staffing ensures the Chief Executive has management of overall staffing as Head of Paid Service with responsibility for effective succession planning and resilience on matters of business within a small team.

A framework for the development and review of the corporate plan and underlying business plans ensures action plans and performance targets are delivered to support continuous improvement.

The costs of the Constabulary are benchmarked annually with reports presented for scrutiny to the Joint Audit Committee. Comparisons to most similar group policing areas are used to inform the budget savings programme and reduce costs.

Procurement regulations are developed jointly with the Constabulary and supported by a procurement strategy. The regulations incorporate procurement policy and procedures that aim to support the understanding and skills of all staff engaged in the procurement process. The procurement strategy sets out how the function will develop to deliver best value from procurement activity. The procurement regulations are supported by a set of grant regulations governing commissioning activity through a grant-based process.

Developing the entity's leadership

The key functions and roles of the Commissioner, the Chief Executive/Monitoring Office and Chief Finance Officer are set out in the Police Reform and Social Responsibility Act 2011 (PRSRA) and the Policing Protocol Order 2011 (PPO). These functions and roles define the responsibilities for leadership and are codified in the Commissioner's Scheme of Delegation and wider documents within the Corporate Governance Framework.

The Chief Executive is the Commissioner's lead advisor. Key responsibilities include working with the Commissioner to enable delivery

Key functions and role of the Commissioner

Sets strategic direction & objectives of the force, issues the Police and Crime Plan (the Plan) & an annual report

Holds the Chief Constable to account for the exercise of his/her functions and force performance; Monitors complaints.

Receives all funding, decides the budget and precept; allocates funding to maintain and efficient and effective police force

Provides the link between the police and communities; publishes information on Commissioner and force performance

against his vision, strategy and identified priorities and facilitating the accurate and appropriate scrutiny of the Constabulary's activities. They are also the Commissioner's statutory Monitoring Officer, providing support to ensure the Commissioner's functions are carried out and has specific legal, financial and governance duties in addition to those which derive from statutory responsibilities. The Chief Executive operates in accordance with professional standards and the legislative and fiduciary responsibilities of the statutory office.

The Chief Finance Officer is the lead financial advisor to the Commissioner and has statutory responsibility to ensure that the financial affairs of the Commissioner are properly administered. The CFO provides all financial advice, provides a statutory report on the robustness of the budget

and ensures systems of internal financial control are effective.

The Commissioner's Scheme of Delegation is part of a wider governance framework that further details specific decision making and wider responsibilities of key officers in relation to areas of governance and ensure all staff have a shared understanding of the roles, responsibilities and decision-making authority within the Commissioner's Office. All governance documents are regularly reviewed and updated as roles develop to respond to changing legislation, regulations and other new requirements.

A member/officer protocol further sets out the roles of political office holders (the Commissioner) and non-political office holders (staff employees) to provide clarification on respective responsibilities and expectations around how relationships are anticipated to work. This is supported by arrangements for the declaration of interests to ensure the Commissioner, members and staff are free from relationships that would materially interfere with decisions making and their roles.

Members of the Joint Audit Committee are recruited for their specific skills and experience to fulfil the role of the Committee. Role profiles include a person specification that requires applicants to demonstrate a sound understanding and relevant professional experience. The Committee has clear terms of reference and membership that is consistent with the requirements of the Home Office Financial Management Code of Practice, and CIPFA guidance. Development sessions, access to relevant publications and CIPFA/Grant Thornton external workshops support members continued development.

Members of the Community Scrutiny Panel are recruited for their specific experience and skills to fulfil the role of the Panel. Applicants are required to demonstrate how they meet the criteria within the role profile, provide their knowledge, skills and life experiences to enable the Panel to achieve scrutiny against its terms of reference and annual work programme.

The Cumbria ICV Scheme comprises of four panels of volunteer Custody Visitors. Every new volunteer is required to undertake induction training, followed by an accompanied observation visit; thereafter, new visitors are trained "on the job" by attending visits in the company of a more experienced colleague for the first six months. On-going ICV training is provided at the regular panel meetings and annual local and regional conferences.

In 2016 the OPFCC became a member of the Independent Custody Visitors Association (ICVA) to which it pays an annual subscription. ICVA is a Home Office funded organisation set up to promote and support the effective provision of custody visiting nationally. ICVA works closely with government and criminal justice organisations providing advice on best practice for independent custody visiting schemes nationally; training; and publicity to Police and Crime Commissioners and custody visitors.

The Police, Fire and Crime Commissioner subscribes as a member of the Association of Police and Crime Commissioners (APCC). The APCC delivers daily written briefings received by the Commissioner and office staff, covering press and parliamentary reporting on those areas within the Commissioner's responsibilities to ensure the Office is kept updated on

current developments. They also subscribe to the Association of Police and Crime Commissioner Chief Executives (APACCE). They provide professional support and development to its members taking a leading role nationally and working closely with the Home Office, APCC and the National Association of Police Chief Constables (NPCC).

The APCC and APACCE deliver national events to ensure Commissioners and their Chief Executives remain informed and have the opportunity to discuss significant issues and develop collective approaches. There are also bi-monthly regional meetings of Chief Executives and quarterly regional meetings of Commissioners and Chief Executives. The Chief Executive/Monitoring Officer leads for the Commissioner on ensuring that appropriate policies and procedures are adopted and followed to ensure the COPFCC complies with relevant statutes and regulations and has the capacity to deliver across these requirements.

The CFO subscribes to the Police and Crime Commissioners' Treasurers' Society (PaCCTS, supporting continuous development and ensuring the CFO maintains a breadth of understanding on policing finance. Further capacity and expertise is commissioned to support specialist services for treasury management, taxation and insurance brokerage.

Arrangements for staff performance development reviews, provide the opportunity to discuss and review individual performance and training and development needs.

Developing the capability of individuals within the entity

The Commissioner has adopted a number of joint HR policies with the Constabulary in addition to operating within a suite of COPFCC specific policies that provide a framework for all issues related to employee management, terms and conditions. This includes policies on how staff and staff associations will be engaged in any change processes. There is a general principle for on-going consultation and engagement during any areas of business change, creating an environment where staff can perform well and where ideas and suggestions are welcomed.

Personnel policies aim to promote a motivated and competent workforce whilst supporting the health and well-being of staff. They include arrangements for work-life balance through a scheme of flexible working and facilitate access to wider benefits e.g. special leave at times of specific personal need.

Business is carried out supported by policies and procedures that support the full range of human resource management responsibilities and all policies are subject to cyclical review in accordance with the Commissioner's policy framework. This supports continuous improvement, ensuring updated guidance is available for staff on how to carry out their roles and the wider responsibilities they should take into account.

All OPFCC staff have clearly defined role descriptions and reporting lines based on the roles and the functions for which they are accountable, to ensure service delivery responsibilities are clear and can be monitored. Individual capabilities, performance and development requirements are

assessed annually through a review process to agree the support, training and development staff need to carry out their duties and responsibilities.

Professional staff undertake continued professional development in line with the requirements of their professional bodies. The budget setting process provides for training and development budgets to support mandatory and discretionary training and development requirements.

Principle F: Managing risks and performance through robust internal control and strong public financial management

Police and Crime Commissioners need to ensure that the entities and governance structures that they oversee have implemented, and can sustain, an effective performance management system that facilitates effective and efficient delivery of planned services. Risk management, business continuity and internal control are important and integral parts of a performance management system and crucial to the achievement of outcomes. They consist of an ongoing process designed to identify and address significant risks involved in achieving outcomes. A strong system of financial management is essential for the implementation of policies and the achievement of intended outcomes, as it will enforce financial discipline, strategic allocation of resources, efficient service delivery and accountability.

Managing risk

The Commissioner's Risk Management Strategy sets out the overall arrangements for managing risk including the arrangements for holding to account the Chief Constable in respect of those risks that fall within his functions. The Strategy establishes how risk is embedded throughout the various elements of corporate governance of the COPFCC, whether operating solely or jointly with the Constabulary. The Strategy incorporates a clear framework of objectives, designates roles and responsibilities for risk management and provides a mechanism for evaluating and scoring risks, and supporting decision making in respect of mitigating action.

The strategy and risk registers are regularly reviewed to ensure a clear alignment between risk management activity and the organisation's objectives. Reporting formats ensure arrangements are dynamic and support the early identification of strategic and operational risks. Identified risks are logged on a risk register with clear ownership and are reviewed cyclically based on a score that denotes the

severity and impact of the risk should it occur. Every project run by the COPFCC has a separate risk register. All decision and report forms include a section for the author to complete in which to identify any risks or potential risks. To ensure effective ownership and monitoring of risks, the Office of the Police, Fire and Crime Commissioner provides risk management training to all staff.

The arrangements for risk management are subject to on-going monitoring and review to ensure their continued effectiveness. This comprises review by internal audit and review by the Joint Audit Committee. The strategic risk register is presented to the Committee on a four monthly basis. The Committee also receives a report from the Chief Executive annually reporting on the effectiveness of arrangements for managing risk. Updates to the Risk Strategy are provided on a 3-year cyclical basis.

Managing performance

The Commissioner holds Public Accountability Conferences, which facilitate the arrangements for monitoring service delivery and holding the Chief Constable and Chief Fire Officer to account. This is supported by

regular one to one briefings between the Commissioner, Chief Constable and Chief Fire Officer at a senior officer level Executive Board. Senior Officers within the OPFCC attend strategic Constabulary and Fire meetings to provide challenge and oversight of the arrangements that support decision making, delivery of key areas of business and the allocation of resources.

The Police, Fire and Crime Panel is the statutory body that provides the public accountability checks and balances in relation to the performance of the Commissioner and scrutiny of any decision made. The Panel receives cyclical information and reports on service delivery plans and progress towards outcomes. The Panel is consulted on the development of the Police, Fire and Crime Plan and budget, with a power of veto over the Commissioner's precept. The panel receives an Annual Report setting out what has been achieved in respect of delivery of the Police, Fire and Crime Plan objectives, and a financial outturn report comparing actual expenditure against the budget and including summary financial statements.

Police, Fire and Crime Panel Functions

Functions include reviewing the draft police and crime plan, public scrutiny of the annual report and the power to veto over the level of the Commissioner's proposed precept

Robust internal control

The Commissioner is responsible for reviewing the effectiveness of his governance framework including the system of internal control. This work is informed by the work of Chief Officers

and Senior Managers who undertake an overarching review of key controls and governance arrangements in support of the key principles in this Code.

Senior Managers with responsibility for financial systems provide annual management assurances using a CIPFA internal control framework as part of this process. This is further supported by an annual fraud risk assessment completed by the Chief Finance Officer and reviewed by the external auditors. Arrangements for anti-fraud and corruption are subject to cyclical internal audit review.

An independent internal audit service is commissioned through TIAA Ltd. Internal audit develops and delivers a risk based annual audit plan of work that reviews internal controls. This supports an annual opinion from the Chief Internal Auditor on the overall adequacy and effectiveness of the framework of governance, risk management and control.

An independent Joint Audit Committee assures cyclical internal reviews of key governance documents (e.g. financial regulations, arrangements for anti-fraud and corruption and the risk management strategy) at its November meeting and receives annual reports reviewing the effectiveness of arrangements for risk, governance and internal control in June and September. The Joint Audit Committee receive a copy of all internal and external audit reports, can table reports for discussion and monitor the implementation of audit recommendations. The Committee undertakes an annual self-assessment to ensure on-going compliance with the CIPFA framework for Police Audit Committees.

Managing Data

The Office of the Police, Fire and

Crime Commissioner operates within the parameters of legislation, such as the Data Protection Act. It ensures that all data, including personal data, is appropriately stored and shared where necessary.

Data is held in accordance with the COPFCC Retention Schedule, removed or destroyed appropriately and access to information is restricted where appropriate to relevant members of staff. Data will not be held for longer than is necessary. Appropriate security measures are taken for both electronic and physical data. All staff are aware of their responsibilities when handling and storing both electronic and physical data and the need to comply with General Data Protection Regulations.

The OPFCC has a Joint Data Protection Officer with Cumbria Constabulary who provides expert advice and support.

Strong public financial management

Arrangements for financial management support for the Commissioner in achieving outcomes and delivering strong operational and financial performance by ensuring that resources are used in accordance with approved plans for service delivery and investment.

The arrangements for financial management are codified within a suite of financial governance documents and comply with the relevant CIPFA Codes of Practice and guidance.

Financial management controls ensure expenditure is only committed in accordance with the approved

budget and the purpose for which approvals have been given. Financial monitoring supports the early identification of variances between actual expenditure and income, supporting timely decision making on remedial action.

A funding arrangement between the Commissioner and Constabulary sets out the consents and arrangements for financial management between the Commissioner and Chief Constable. This ensures funding within the Constabulary is directed toward the achievement of the Policing Strategy and priority outcomes within the Police, Fire and Crime Plan.

Financial regulations set out the role and responsibilities of Chief Officers and senior staff for financial management and governance. They include financial management standards to be adhered to by all staff across the organisation and the wider framework of controls including the arrangements for the statement of accounts.

Financial risks and mitigations are set out within the Medium-Term Financial Strategy and are managed within the Commissioner's overall framework for managing risk. The Chief Finance Officer takes ownership of all financial risks and reports to the Joint Audit Committee on the management of strategic financial risks. Arrangements for financial management are cyclically reviewed by the internal auditors for assurance and form part of the arrangements reviewed by the external auditors in forming their conclusions on the financial statements and value for money.

Principle G: Implementing good practices in transparency, reporting, and audit to deliver effective accountability

Accountability is about ensuring that those making decisions and delivering services are answerable for them. Effective accountability is concerned not only with reporting on actions completed, but also ensuring that stakeholders are able to understand and respond as the organisation plans and carries out its activities in a transparent manner. Both external and internal audit contribute to effective accountability.

Implementing good practice in transparency

The Commissioner's annual report is the primary communication through which the public can access and understand the performance and activities of the Commissioner and his Office. Design work for the report is commissioned from external media and communication professionals which alongside the written style aims to support transparency and public accessibility of the report.

All public documents are published on the COPFCC website and are available in accessible formats. Further options can be offered on request. The intention is to ensure that all documents are written in such a way as to make them accessible to readers that may not have a detailed knowledge of the subject matter, though with some complex issues this is not always possible. The publication of key documents, such as the Police, Fire and Crime Plan, is supported by a media release to raise awareness of the document and its purpose.

Arrangements for financial reporting aim to ensure the accessibility of financial information for readers and users of financial reports. On complex matters accessible summary statement. The financial of communication, for example consultation on budget, precept and

services, professional support has been procedure to ensure a robust public understanding of complex issues.

Implementing good practices in reporting

The Office publishes an annual report, scrutinised by the Police, Fire and Crime Panel, to communicate the Commissioner's activities, achievements and performance and that of the Chief Constable and the force. The annual report presents the performance outcomes achieved against an agreed framework of targets and measures.

The Commissioner is subject to the Accounts and Audit (England) Regulations 2015 and prepares a set of accounts in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting. Compliance with the Code of Practice ensures the comparability of financial information within the statements with other similar entities and their publication in accordance with statutory timeframes. The financial statements include a comprehensive income and expenditure statement, which is aligned to in year financial reporting and monitoring. A narrative statement by the Chief Finance Officer sets out the overall financial and business performance for the year within an accessible summary statement. The

financial statements include the external auditors report setting out the overall opinion. A separate annual report details the external auditor's conclusions on the Commissioner's arrangements for value for money.

The Commissioner's overall arrangements for governance are reviewed annually against this Code of Corporate Governance with a report made on how it has been complied with. This 'Annual Governance Statement (AGS)' is subject to review by the Joint Audit Committee. The AGS includes an action plan setting out the work that will be undertaken over the following year to support continuous improvement in line with the principles of this Code and the CIPFA good governance framework.

The Commissioner and the Joint Audit Committee receive annually a report reviewing the governance arrangements for internal audit against the requirements of the Public Sector Internal Audit Standard (PSIAS).

Assurance and effective accountability

Grant Thornton UK LLP are the external auditors appointed to both the Police Fire and Crime Commissioner for Cumbria and the Chief Constable for Cumbria Constabulary, to report key matters arising from audits of the Commissioner and Chief Constable's financial statements. The external auditors also reach a formal conclusion on whether the Commissioner and Chief and Constable have put in place proper arrangements to secure economy, efficiency and effectiveness in the use of resources.

The audit findings report is published in the financial statements and presented

to the Commissioner and Joint Audit Committee for review. The Joint Audit Committee monitors the implementation of recommendations arising from the audit and have the expertise to challenge the external audit approach, supporting assurance of its effectiveness. Further accountability is provided through the arrangements for internal audit. Internal audit is delivered through a contract with TIAA Ltd and in accordance with an Internal Audit Charter that ensures compliance with the PSIAS. An annual review of the effectiveness of the internal audit service, including the arrangements for the Joint Audit Committee, is undertaken annually by the Chief Finance Officer against CIPFA best practice standards. The report is published on the Commissioner's website to support assurances on internal control.

The arrangements for accountability further incorporate challenge, reviews and inspections from HMICFRS. Whilst these are primarily aimed at Constabulary performance, elements of specific reviews include jointly delivered activities and specifically commissioned reports that cover governance across both organisations. Recommendations are reported to and monitored by the Commissioner and Joint Audit Committee.

The Community Scrutiny Panel also monitors and reports on some specific areas of activity, such as complaint handling, custody detention, misconduct and ethical issues. The Panel has carried out a series of thematic inspections into specific areas of Constabulary activity. They are able to look objectively at these areas and provide valuable independent scrutiny and feedback to the Constabulary on their findings.

The arrangements in this document set out our framework for governance in accordance with CIPFA's Good Governance Principles and guidance. Annex A to this Code sets out our governance schematic, summarising the arrangements we have in place internally and sources of external guidance and support. Further information on the arrangements for Governance can be found on the Commissioner's website under the tab headed Governance and Transparency.
